**CIRS**  
CHEMICAL INSPECTION  
& REGULATION SERVICE

**Seminar on  
Chemical Control Law & GHS:  
China, South Korea and Taiwan  
11<sup>th</sup> June 2014  
etc.venues, London Victoria**

Exporters to Asia-Pacific countries must understand their legal responsibilities regarding chemical registration/notification. The chemical schemes in China, South Korea and Taiwan are often likened to European REACH, but there are fundamental differences that need to be understood to ensure compliance.

The Chemical Hazards Communication Society (CHCS), in partnership with Chemical Inspection and Regulation Service (CIRS), is pleased to announce this important Seminar covering chemical control law and status of GHS in China, South Korea and Taiwan. It is equally important to exporters of both substances and mixtures.

The Speaker, Mr Yunbo Shi is the Managing Director and Principal Consultant of CIRS. Mr Shi has been tracking the evolution of existing regulation and emergence of new legislation in Asia for many years and has extensive knowledge of chemical control law in the region, particularly in China, South Korea and Taiwan. He also has practical experience of chemical registration and GHS in Asia. Mr Shi's academic credentials include a B.Sc. in Chemistry from the University of Science and Technology of China (USTC) and a Master's Degree in Chemistry from University of Maryland, College Park.

A Questions and Answers session will follow each of the talks (see Program). Delegates are invited to submit their questions in advance, to maximise the opportunity for understanding the legislation and obtaining practical solutions.

The seminar is being offered to CHCS members and CIRS delegates. If you wish to attend the seminar and are not currently a CHCS member (or CIRS delegate), the CHCS membership subscription will be added to the seminar fee and you will be entitled to full membership benefits for the duration of your subscription.

The cost of the seminar is being subsidised by CHCS for the benefit of members and CIRS delegates at £150 plus UK VAT as applicable.

Please ensure that you book your place early to avoid disappointment.

# Chemical Control Law China, South Korea and Taiwan

## Overview

### **China**

- Overview of chemical control law in China;
- New substance notification and updates;
- Regulation on safe management of hazardous chemicals (Decree 591);
- HazChem registration and latest status;
- China GHS implementation  
SDS/label/24h emergency telephone number;
- Case studies and resources.

### **South Korea**

- Introduction to K-REACH and latest updates;
- Types of chemical substance registrations and data requirements;
- Issues related to new substances for R&D use, small volumes of new substances, polymers of low concern and intermediates;
- Product notification/management under K-REACH;
- GHS implementation in South Korea.

### **Taiwan**

- Introduction to the revised toxic chemical substance control act (TCSCA);
- Updates of national existing substance inventory;
- Proposed types of registrations under TCSCA;
- Comparing chemical registrations in Taiwan with Korea, China & EU;
- Implementation of TCSCA and GHS in Taiwan;

## Program

09.00	Registration
09.45	Opening Address, Stuart Longworth, Chairman of CHCS
10.00-11.00	China REACH
11.00-11.20	Question time, China REACH
11.20-11.40	Coffee break
11.40-12.40	Taiwan Chemical System
12.40-13.00	Question time, Taiwan
13.00-14.00	Lunch
14.00-15.00	K-REACH
15.00-15.20	Question time, K-REACH
15.20-16.00	Concluding questions
16.00	Close of Seminar
