MODULE 19 – EU CLP (GHS) LABELLING FOR SUPPLY

The supply label is the primary means by which handlers and users of products are made aware of the hazards to their health and the environment. Following on from the classification of substances and mixtures, it is imperative that products are correctly labelled.

This module covers the EU label elements including pictograms, signal words, hazard statements and precautionary statements. Delegates will be shown how to pull these elements together into a label which is compliant in content and format. The module will also cover rules for affixing of labels, language, tactile warning devices, updating of labels and packaging requirements.

Who should attend?

This module is mainly aimed at those responsible for ensuring that supply labelling is compliant and Safety Data Sheet writers.

It is recommended that delegates also attend [Module 17](#) and [Module 18](#) to gain a complete understanding of CLP.

Benefits of attending

Attendance on this series of modules will ensure that **your** SDSs and labels meet the increasing expectations of both your customers and the regulators. To ensure the most effective training with optimum involvement in participative exercises, there will be a limit of 14 on the number of students.

IOSH members are entitled to include this module in their continuing professional development records.

What you will learn

The module will include sessions covering the following topics:

- The regulatory framework
- The purpose of labelling
- Hazard classes and categories
- Label elements:
 - Symbols
 - Pictograms
 - Signal words
 - Hazard statements
 - Precautionary statements
 - Supplier information

- Other items – product identifiers, quantities, etc
- Label layout
- Label dimensions
- Affixing of labels
- Supplemental information
- Derogations
- Tactile Warning Devices and Child Resistant Fastenings
- Packaging
- Updating and record keeping
- Disclosure and confidentiality

Participants need to bring an electronic copy of the Regulation (EC) No 1272/2008 on Classification, Labelling and Packaging of Substances and Mixtures, including Annexes on a laptop or tablet for use during the exercises.

The latest consolidated version of the CLP Regulation can be downloaded from:

<http://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:02008R1272-20160101>

Module Tutor

Louise Witter has been working in the field of general quality, health, safety and environment for 17 years and specializes in SDS production. She has taught SDS producing staff within all of the major production chemical companies servicing the oil and gas industry as well as general chemical majors, small businesses and universities. She has also been approved to instruct in the safe carriage of dangerous goods by the Civil Aviation Authority, Department for Transport and Scottish Qualifications Authority and has recently obtained a law degree.

Comments From Delegates Attending The October 2016 Course

“Very informative – explained everything clearly with good examples”

“Great materials and pace”

“Well presented, well laid out, useful group exercises”

“Each section explained very clearly with good examples given for clarity”

Reserving A Place

For dates, venues and costs, please see our website at:
www.chcs.org.uk/training/safety-data-sheet-training.htm.

Our training courses are £295 (+VAT). However, we offer a **discounted price** of only £245 (+VAT) which expires 9 weeks before the date of the course.

Your attention is drawn to the conditions below:

Delegates can be substituted at any time, subject to payment of membership fee if applicable. **However, once booked, the full fee is payable. As this is a limited space training event refunds can only be made if CHCS is notified in advance, and is able to successfully re-offer the place to another delegate.**

CHCS reserves the right to alter or cancel the programme due to circumstances beyond our control. If CHCS cancels, then refunds will be made.
