

Module 19, CLP Labelling (EU & UK)

**For dates and venues, please visit: [CHCS Training](#)
This Module will be delivered, live, online**

The supply label is the primary means by which handlers and users of products are made aware of the hazards to their health and the environment. Following on from the classification of substances and mixtures, it is imperative that products are correctly labelled.

This module covers the label elements including pictograms, signal words, hazard statements and precautionary statements. Delegates will be shown how to pull these elements together into a label which is compliant in content and format. The module will also cover rules for affixing of labels, languages, updating, and packaging requirements including Tactile Warning Devices and Child Resistant Fastenings.

Who Should Attend?

This course, delivered live, online over two consecutive mornings, is mainly aimed at those responsible for ensuring that supply labelling is compliant and Safety Data Sheet writers.

It is recommended that delegates also attend [Module 16, CLP Classification](#) to gain a complete understanding of CLP.

Benefits Of Attending?

Attendance on this series of modules will ensure that your SDSs and labels meet the increasing expectations of both your customers and the regulators. To ensure the most effective training with optimum involvement in participative exercises, there will be a limit of 16 on the number of students.

IOSH members are entitled to include this module in their continuing professional development records.

What You Will Learn

The module will include sessions covering the following topics:

- The EU and UK regulatory framework
- The EU and UK classification system
- Application & responsibilities
- Label elements such as:
 - Product identifiers
 - Supplier information
 - Pictograms
 - Signal words
 - Hazard statements
 - Precautionary statements
 - Mixture composition
 - Supplemental information

- Label layout
- Label dimensions
- Affixing of labels
- Exemptions
- Packaging including consumer requirements
- Tactile Warning Devices and Child Resistant Fastenings
- Updating and record keeping
- Disclosure and confidentiality
- Future regulatory changes

SAMPLE PROGRAMME

- The Regulatory Framework
Exercise 1
- The Classification System
Exercise 2
- Label content
- Label content and format
- Exercise 3
- Packaging
- Some final points
- Q & A Session

Module Tutor

Susan Bentley has worked in the health, safety and environment area for over 30 years, in a wide range of industries including, pharmaceutical, aerospace, marine, energy and nuclear, and specialises in classification for supply and transport, and SDS production.

Module Presentation

We will deliver this training using an online system, which we have used successfully for other CHCS events and training. There is no charge to delegates for using the software. The licence cost is borne by CHCS.

The sessions will run live and delegates can interact with the tutor and other delegates using their device microphone. The tutor will use a PowerPoint presentation, just as they would in face-to-face training. We will provide you with copies of the presentation and all other supporting documentation in advance of the training, by email. We will provide you with a document giving more details about using the software plus some tips for getting the best out of the day.

Participants need to bring an electronic copy of the Regulation (EC) No 1272/2008 on Classification, Labelling and Packaging of Substances and Mixtures, including Annexes on a laptop or tablet for use during the exercises.

The latest consolidated version of the CLP Regulation can be downloaded from:

<https://echa.europa.eu/regulations/clp/legislation>

Comments From Delegates Attending Previous Courses

"Fantastic! The trainer was really well prepared, took everything back to basics and built on it. Great notes and information packs."

"Good logical progression through the requirements with relevant exercises to support understanding."

"Training was detailed, interesting and contained all relevant information"

"Good pace, answered individual questions – tailored to everyone's needs"

Reserving A Place

You can reserve a place at this course, online by visiting [Chemical Hazards Training](#), finding the next occurrence of the course and completing the on-line booking form. Courses are only available to CHCS Members. If you are not an existing member and would like to join, again, the process is simple and you can complete our online Membership Registration form at: [Join Us](#).

This course is £285 (+VAT), but we offer a **discounted price** of only £260 (+VAT) which expires 6 weeks before the date of the course. Please see the online event for more details.

Please note these Conditions

Delegates can be substituted at any time, subject to payment of a membership fee if applicable. However, once booked, the full fee is payable. As this is a limited space training event, refunds can only be made if CHCS is notified in advance, **and** is able to successfully re-offer the place to another delegate.

CHCS reserves the right to alter or cancel the programme due to circumstances beyond our control, including insufficient interest. If CHCS cancels, then refunds will be made. For registrations made within 5 weeks of the course date, we only accept payment by Card.
