

Module 4, Poison Centre Notification

Meeting the requirements of CLP Annex VIII: how, what, where, when, and to whom

For dates, please visit: [CHCS Training](#)
This Module will be delivered, live, online

Annex VIII to CLP

The regulation concerning the classification, labelling and packaging of substances and mixtures (CLP Regulation) (EC Regulation 1272/2008) was amended on 22 March 2017 when EU Commission Regulation 2017/542 was published.

This long-anticipated piece of legislation added a new Annex (Annex VIII) to CLP on harmonised information relating to the provision of information for emergency health response.

The regulation describes the information required to be notified and also introduces a new requirement to print a Unique Formula Identifier (UFI) on mixture labels.

This training will cover:

- What needs to be notified
- The deadlines
- Information required in the notification
- Unique Formula Identifier (UFI)
- Mixture in mixtures (MIM)
- Group Submissions
- Reduced submission
- Updates to submissions
- Notify to Whom
- Tools:
 - XML format
 - UFI Generator
 - EU Product Categorisation System (EU PCS)
 - ECHA submission portal
 - Member State Implementation

Practical sessions will take you through completing a notification in the portal.

By the end of this session, you will be able to make notifications using the new harmonised approach in the ECHA portal.

SAMPLE PROGRAMME

- Session 1
Legislation: background & training
- Session 2
Tools and Member States
- Session 3
Practical session
- Session 4
Practical session
A look ahead

Who Should Attend?

This module is aimed at those taking on responsibilities for the notifications of hazardous mixtures to the poison centres. Importers and downstream users placing hazardous mixtures on the market, and distributors who modify the label or packaging for hazardous mixtures will need to notify the ingredients in those mixtures classified as hazardous for physical effects and/or health effects.

What You Will Learn

This module aims to provide practical information on how to complete your Poison Centre obligations and notifications.

Benefits of Attending

Attendance on this series of modules will ensure that you meet the increasing expectations of both your customers and the regulators. To ensure the most effective training with optimum involvement in participative exercises, there will be a limit of 16 on the number of students.

IOSH members are entitled to include this module in their continuing professional development (CPD) records.

EU and UK legal requirements

The requirement to notify to Poison Centres will lie with the European importer, although UK based companies can make voluntary notifications to help their supply chain. Notifications to the UK will remain voluntary.

Northern Ireland

Northern Ireland will follow the EU harmonised format, an Annex VIII dossier should be created and submitted to the NPIS.

Module Tutor

This module will be presented by Caroline Raine. Caroline is a chemical legislation expert, with experience of interpreting and implementing EU legislation relating to hazardous chemicals. The knowledge Caroline has of legislation is wide ranging, covering both supply and transport legislation. Caroline has been participating in the working groups on poison centres with ECHA and has an excellent understanding of the forthcoming requirements. Caroline is also a Council member of the CHCS.

Module Presentation

We will deliver this training using online training software, which we have used successfully for other CHCS training courses. You can use the software, free-of-charge on Windows, Macs, smartphones and tablets.

The sessions will run live, and delegates can interact with the tutor and other delegates using their device microphone. The tutor will use a PowerPoint presentation, just as they would in face-to-face training. We will provide you with copies of the presentation and all other supporting documentation in advance of the training, by email.

Participants will need to have access to a REACH-IT account. (i.e. a laptop or tablet will be required).

If you do not have a REACH-IT account we suggest setting one up, otherwise you can have access on the day to a training account.

Comments From Past Delegates

"Gave a comprehensive overview of the requirements with good examples."

"Well delivered. Easy to understand. Good pace. Right amount of information."

"Caroline's knowledge is fantastic. I particularly enjoyed doing, the exercise, even though I got parts wrong."

"A real strength was running a live notification. "

Reserving A Place

You can reserve a place at this course, online by visiting [Chemical Hazards Training](#), finding the next occurrence of the course and completing the on-line booking form. Courses are only available to CHCS Members. If you are not a member and would like to join, again, the process is simple and you can complete our online Membership Registration form at: [Join Us](#).

Our training courses are £275 (+VAT). However, we offer a discounted price of only £250 (+VAT) which expires 6 weeks before the date of the course. Please see the online event for more details.

Your Attention Is Drawn To These Conditions

Delegates can be substituted at any time, subject to payment of membership fee if applicable. However, once booked, the full fee is payable. As this is a limited space training event refunds can only be made if CHCS is notified in advance and is able to successfully re-offer the place to another delegate.

CHCS reserves the right to alter or cancel the programme due to circumstances beyond our control. If CHCS cancels, then refunds will be made.
